Captain Henry Says Ex-Commissioner Had 'No Conscience.'

Some Thirty Superior Officers Testify to Having Fines Remitted by Waldo.

About thirty inspectors, captains, lieu tenants and sergeants of the Police Department testified before the aldermanic vestigating committee yesterday about the fines imposed upon them by former missioner Cropsey and later remitted by Commissioner Waldo, despite an opinion rendered by the Corporation Counsel that it was illegal for him to do so. The ion was enlivened by Captain Dom inick Henry, who took issue with Emory R Buckner, chief counsel for the commit see, all the time he was in the witness chair, ending with a bitter characterization of former Commissioner Cropsey as "man with no heart, no conscience and o manly feelings."

Beginning with Captain George C. Liebers, of the Bronx Park station, all the nen were examined about the fines upon them for violating his order to asnone but old policemen to "easy berths," such as theatres and supervision over disorderly and gambling houses. tried by Deputy Commissioner Dillon after Mr. Waldo became Commissioner and been reimbursed.

The testimony of all, with the excep tion of Captain Henry, was much of the same character. They merely told how they had applied for and received a rebearing of their cases and had had their fines remitted.

"My fine," said Captain Henry, who turned and twisted upon his chair while he glared at every one who happened to lock at him, "was imposed upon me by a man who has no heart, no conscience and no manly feelings. Cold Shoulder to Winter. Venerable Winter, together with his poon companion, the North Wind, Four Boys Trip and Rob Woman, seems to have been shut out from the city's gates, at least it appeared that way yesterday. The atmosphere was FOR FAVORING AGING MEN balmy-that's the word. Many people PICKED UP ONE BY ONE went about the streets overcoatless, and others, suspicious that the calendar was playing a trick, carried their wraps over their arms. It was a queer

The maximum yesterday was 63 degrees, while a dozen years ago the mercury slid snakily up to 77; and in 1893, 1894, 1895. 1897 and 1898, each year supplied at least one December day with a maximum of 72.
